\$25 per person

If you have to deal with
old steam systems,
you're going
to love
this seminar!

This seminar will make you familiar with the many types of old steam heating systems and make you a better troubleshooter when it's time to solve those heating problems. We'll look at:

- Steam heating loads
- Radiation of all sorts
- Boiler ratings
- Proper near-boiler piping
- The importance of water quality
- All sorts of system piping
- The value of pipe insulation
- Sizing the air vents
- Curing water hammer once and for all
- Getting the water back into the boiler
- Pressure settings
- Steam traps
- Hot-water zones of any steam boiler

REGISTRATION:
